City of Sanibel Planning Commission Application
John Talmage

Background:

I have spent the majority of my career working for local governments in New York City and New Orleans. These experiences combined with my previous position as the President and CEO of Social Compact, have provided me a continuity of experiences of working with City Planning Commissions throughout the United States. I have had the pleasure of using these experiences to develop a national reputation in public policy and the role that data and information play in improving a public policy framework. These experiences have provided me with an opportunity to to testify in front of congress, state legislatures and local city councils, work with the federal regulator community and join with mayors, planning departments and other areas of government along with local communities to address local government's most pressing concerns. I addition, my wife and I own several restaurants on Sanibel and this has given me a deep desire to combine my professional experiences with my more recent experience as a small business owner to contribute my expertise to the City Planning Commission.

Community Involvement:

Since moving to Sanibel, I have had the opportunity to become involved in the community in a variety of ways. These range, but are not limited to, from serving as the Sunday School Coordinator at St. Michaels and All Angels Episcopal Church to chairing the board of the Sanibel Sea School to working with Horizon Council to develop a new Business Attraction Task Force. On a larger scale, I am working with a variety of communities in Lee, Hendry and Glades County to establish more sustainable economic development initiatives while protecting the natural resources that are the underpinnings of their way of life.

Why are you interested in this appointment?

I believe that planning is an important foundation for any jurisdictions public policy framework. The experiences that applicants have, the quality of a community's comprehensive plan and a Planning Commission's vision are the all important inputs into a transparent and generative planning process. i have a unique background in applying data and information to municipal challenges and i strongly wish to apply this background to an opportunity to serve on the Sanibel Planning Commission.

Why are you interested in this appointment?

I believe that planning is an essential foundation for any jurisdiction's public policy framework. The experiences that planning members have, the quality of a community's master plan and the access to data and information that a local government has are all important inputs into a transparent and generative planning process. The outcome of these processes influence many things that go into a local economy such as outside perceptions, the cost and quality of capital and the ability of a government body to make balanced decisions. I believe in the role that planning plays in all communities, but I most strongly believe in the role that planning plays in Sanibel where we have to wrestle with how to balance investment with overdevelopment, our quality of life with the quality of our environment and the need to be uniquely Sanibel while supporting the needs of Lee County and Southwest Florida. I have a unique background in applying data and information to municipal challenges and I strongly wish to apply this background to an opportunity to serve on the Sanibel Planning Commission.
