QUESTIONNAIRE

Contact Information

Name: Jerry & Nancy Cunningham Phone: 765-783-4782

Address: 1469 Sand Castle Rd E-mail: JERNAN65@Yahoo.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

( ) ( ) (X) ( )

Comments: Do not wish to have my front yard encroached upon, but more importantly, I wish to see no one injured.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (X)

Comments: Speed Bumps - lots of them pain in the butt, however most effective, you "have to" slow down

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (X)

Comments: Install gates at Bailey Rd and Dixie Beach, make it a "Gated Community".

Additional Comments: We had someone in February take turn in front of our house too fast. Took out neighbor's and our mail box.

With all the turns around Sand Castle Rd, you do not have the staff to "effectively" make an impact. Thank you for seeing the needs here.

How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

I am very much against it.

Our street works very well as is. It's very enjoyable to walk and bike on Sandcastle Road.

In my opinion a paved shoulder or berm would make our streets less safe for walkers and bikers.

You need room of the street to maneuver when walking or biking on Sandcastle. The curves are a problem. Often you need to change sides depending on the visibility and direction of the curve.

Trying to ride a bike on a paved shoulder especially with cars coming behind you, is very dangerous.

Many times there are 2 or more people walking or riding.

To have a path on one side would be enormously unfair. The people and dogs would double on that side as well as the residents loss of privacy.

It's not just about the short window of time when our streets are busier than they should be, due to people cutting through. It's more about our lives the other 99% of the time.

You learn not to walk or bike during that 2 hour window. Just as you learn not to take your car to Periwinkle at that time.

The work and aggravation of moving mailboxes, cutting and shortening driveways, relocating utilities, disrupting plants and perhaps trees, changing the bed lines and landscape design, the rocks and sprinklers and diminishing the size of the property of many of the people on Sandcastle Road would be enormous.

It's not just work and money for you, but it's also work (and money) for us as well.

Address: 1271 Sand Castle Road E-mail: dandres232@aol.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important) ✓

Comments: Needed for safety when walking with children and for dogs. Will also promote bike safety.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) ✓ 2 3 4 (very important)

Comments: By reducing "cut-through" traffic, this should become less of an issue.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important) ✓

Comments: Allowing "cut-through" traffic unnecessarily increases volume in the neighborhood. The cut-through concept is clearly inconsistent with a residential community.

Address: 1627 SAND CASTLE ROAD E-mail: MARTYUHLE@AOL.COM

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

Comments: These paths would allow a true sharing of the road for all to enjoy. It is not safe to ride or walk on these roads today.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

Comments: The study shows speed is not the issue. Too many curves to really speed. NO SPEED BUMPS!

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments: I live on Sandcastle and do not see this as an issue. Speed bumps create noise from braking, then acceleration; they annoy ALL users of our roadways. Please just include a paved shoulder or berm for riding/walking. This would correct the oversight from the original developers and city approvals for the Dunes. Remember the Sanibel motto - Rideable + Walkable

Address: 3265 Forrest Ln. York, PA 17402 (local) 980 Sand Castle E-mail: MS6T4@comcast.net

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (X)

Comments: I do not run/walk or ride my bike around Sand Castle Rd. because I have had too many close calls with cars.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 (very important) 4

( ) ( ) (X) ( )

Comments: I think the issue is not the speed limit, but that most people do not follow it.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

( ) (X) ( ) ( )

Comments: Not sure how this would be done. The worst offenders, as far as driving too fast, seem to be residents who are rushing to get to their tennis or golf matches at the country club, not necessarily the workers cutting through.

6/4/14

Keith L. Williams II, PE
Public Works Director, City Engineer
City of Sanibel

Dear Mr. Keith L. Williams, PE

Enclosed is our response to the widening of Sandcastle Rd + Albatross Rd.

Also over 1 year ago my landscaper told me this was going to happen, now the City wants our approval.

(1) Why was the open house done so late (most people left) ~~+~~ a copy of the Open House mailed on 6/02/14 (open house 4/29/14).

(2) Waste of money by The City to copy Open house, Questionnaire, + letter from you again.

(3) I believe the City has already made up there mind over a year ago.

We do not want the roadway widened.

Respectfully,
John J. Tondra III

To: sanpw
Subject: Dunes survey response

Dear Mr. Williams,
We are the owners of 1639 Sand Castle Road in the Dunes.
Here are our responses to the survey questions regarding maintenance and resurfacing;
1) the allocation of of space for pedestrian and bicycle use would rank as **very important (4).**
2) taking steps to lower the speed of vehicles traveling within the Dunes is **very important (4).**
3) taking steps to reduce the volume of vehicles that cut through the Dunes is **important (3).**

Additional comments:
As on the whole of Sanibel, the encouragement of pedestrian and bicycle use is a valuable tool that enhances the character and safety of the community. All ages use the streets not just as conveyances, but for leisure and exercise. We wholeheartedly laud any effort to boost this effort.

Lowering the speed of vehicles, especially those passing through, makes the aforementioned proposal more attractive, and certainly safer. Traffic calming measures might deter cut-through traffic, helping to reduce the volume of vehicles. Cut-through traffic would not enjoy the ability to make up time by using the Dunes streets as an alternative to Periwinkle.

Traffic calming can also be aesthetically pleasing in a residential setting if executed well.

Thank you,
Patrick (Jack) and Michaela Brady

Subject: Dunes Survey

Mr. Williams - I live in the Dunes at 1647 Sandcastle and I own 1645 Sancastle. I am very much in favor of a multi-use path on Sancastle. It would go a long ways towards keeping everyone safer and it would look good. Very important

Reducing the speed of cars in the Dunes would also help make it safer. Important

I am not concerned about the volume of cars. Not

Regards
Brian

Address: 1388 Albatross Rd. E-mail: roz19@juno.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: As year round residents on Albatross Rd. we are against this proposal.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments:

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments: As a year round resident living on Albatross we feel that for a few months it's tolerable. We feel that most traffic is due to seasonal residents either in the area or people using the Dunes facilities - golfers or tennis players.

Additional Comments: We think the traffic problem in the Dunes is because of the gridlock on Periwinkle which should be addressed - (5 o'clock traffic)

Subject: QUESTIONNAIRE

City of Sanibel
Public Works Dept.
800 Dunlop Rd.
Sanibel, Florida 33957

To whom it may concern:

1. How important is it to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle and Albatross Rd.?

On a scale of 1 to 4: 1-Absolutely Not!

2. How important is it to you that the City take steps to lower the speed limit of vehicles traveling within the Dunes?

On a scale of 1 to 4: 4-Lowering of the speed limit will provide safer conditions for all-walkers, bikers, drivers, etc. for obvious reasons!

3. How important is it that the City take steps to reduce the volume of vehicles that cut through the Dunes?

On a scale of 1 to 4 4-Also for safety reasons-higher volume of traffic increases chances of accidents. It would also provide and enhance the privacy of a small residential neighborhood.

We did not receive this questionnaire in the mail. A friend happened to mention it to us recently and gave us the information and format.
We have been residents of The Dunes for 14 years and have seen the volume of traffic grow increasingly. We are pleased to know many of our concerns are being addressed.

Sincerely,

Bob and Sherry Scherer

1179 Sandcastle Rd.

Contact Information

Name: HELEN ACKERMAN Phone: 472-4274

Address: 1457 SANDCASTLE E-mail: NONE

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

( ) (X) ( ) ( )

Comments: THERE IS A LOT OF BICYCLE TRAFFIC DURING HIGH SEASON - PRETTY QUIET DURING SUMMER. A BERM OR SHOULDER WOULD INCREASE TRAFFIC EVEN MORE

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (X)

Comments: SOME RESIDENTS OF THE DUNES ARE AT FAULT!

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

( ) (X) ( ) ( )

Comments: DOES NOT AFFECT MY STRETCH OF SANDCASTLE - NOT GOOD FROM ALBATROSS TO BAILEY TO PERIWINKLE

Additional Comments:

UNFORTUNATELY THE DUNES HAS ATTRACTED BICYCLE TRAFFIC OTHER THAN RESIDENTS - CAN'T BLAME PEOPLE FOR LOVING IT HERE.

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

QUESTIONNAIRE

Contact Information

Name: John and Judy Barbieri Phone: 239 472 5876

Address: 1458 Sand Castle Rd E-mail: john.barbieri44@gmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: the Dunes is a Residential area and would become the ONLY Residential area to have a ~~path~~ bike therefore Turning into a 'Tourist' area. Really not necessary. A bike path →

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: A lower speed limit and police patrolling at random Times and places (especially the 1000's To 1400's Sand Castle) should send out the message That you wouldn't save time cutting through. People who live →

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: Although, my side is not affected as badly as the south side, any increase in the number of vehicles using Residential Roads has an impact on roads surrounds it. the city should be looking at ways to reduce the congestion on Periwinkle Way during 'Season' (probably impossible). Re-routing Traffic through a residental area is really NOT a solution.

~~Additional Comments~~:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096
(239) 472-6397 | Keith.Williams@mysanibel.com

① on both sides of Periwinkle Way would be of greater use for both the community and the Tourist.
(from Causeway Road to Palm Ridge/Tarpon Bay Rd).

② in the Dunes and people who belong to the Club would also learn to obey the 'limit'.

QUESTIONNAIRE

Contact Information

Name: Richard & Nancy Hopkins Phone: 395-0345

Address: 9128 Mockingbird Dr E-mail: richoppy@comcast.net

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: It is "very important" to us not to have a paved shoulder in the Dunes as it would change the character of our community!

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: Have there been many accidents due to speed? It may help a little to lower speed limit, but NO SPEED BUMPS.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: If we lived on the South leg of Sand Castle, we would strongly support it. In support of our neighbors, we would support it too.

Additional Comments:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096
(239) 472-6397 | Keith.Williams@mysanibel.com

1 How important is it to you to include a paved shoulder allocated to pedestrians and bicycles?
answer: very important (4)

2 How important is it to you that the city takes steps to lower the speed of vehicles?
answer: important (3) but it depends on what the steps include. I would not be in favor of speed bumps.

3 How important is it to you that the city takes steps to reduce the volume of vehicles that cut through the Dunes.
answer: important (3) but it depends on what the steps include. Can you fix the traffic problem on Periwinkle so people stop driving through the Dunes? That would be a better use of money than doing something to Sandcastle Rd and Albatross Rd.

QUESTIONNAIRE

Contact Information

Name: Tate Ball Phone: (239) 353-8867

Address: 1407 Sandpiper Circle E-mail: tateball@yahoo.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

[1]

Comments: I do believe that having ped/bicycle area would encourage rather than discourage speeding. Perhaps only around blind curves.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

[4]

Comments: I think that more signs (Children Ped, Slow Residential) and the police at Albatross & Sandcastle for an hour (peak times) would discourage.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

[4]

Comments: People cut through due to the flow of Periwinkle. It's not a year-long issue but rather a seasonal inconvenience. A few extra signs & a few tickets would likely lower the volume.

Additional Comments: I would like to see something done about the blind curves. Those, as a dog-owner, I feel become quite unsafe.

Thanks!

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

☐ ☐ ☐ ☒

Comments: It is dangerous to walk on Sand Castle, especially where there are sharp curves.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

☐ ☐ ☐ ☒

Comments: as (1) above. I drive elsewhere for a walk because of the danger

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

☐ ☐ ☒ ☐

Comments:

Additional Comments: I live on Sand Castle and cars/SUVs/pick-up trucks can be a real problem, especially as they pass bicyclists + pedestrians on a curve.

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

QUESTIONNAIRE

Contact Information

Name: Nancy Travis & Kevin Tidd Phone: 517-398-0108

Address: 1212 Sandcastle Rd. Sanibel ~~308 Sycamore St. Litchfield MI 49252~~ E-mail: jktidd@hotmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

( ) (✓) ( ) ( )

Comments:

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (✓)

Comments: I walk the perimeter of The Dunes every morning. If speed limits were enforced, #1 would not be a concern. #3 is only an issue "in season" when many vehicles are ~~cutting through from Periwinkle Rd. (most speeding).~~ If it took drivers just as long to cut through The Dunes, they would stay on Periwinkle

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) (✓) ( )

Comments:

Additional Comments: This past winter I had two unfortunate experiences:

#1 Sitting at stop sign on Dixie Beach Rd. waiting to turn right onto Periwinkle, a car rushed through the Island Shops parking lot (the wrong way) and pulled into the side of my car - $2000 damage, other driver cited at fault.

#2 ~~Walking around The Dunes, car traveling too fast cut a curve short & I sprained a~~ foot badly when moving out of the way.

Both minor perhaps, but both avoidable if speed limits & signs were enforced.

Nancy Travis

IN WINTER AT 1651 SAND CASTLE

Contact Information

Name: CHET & PEGGY PARDEE Phone: 248-875-9044

Address: 212 N MAIN ST, CLARKSTON, MI 48346 E-mail: CPPARDEE@AOL.COM

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

( ) ( ) (X) ( )

Comments: I AM A BIKER AND ENJOY THE CURRENT BIKE PATHS. I DO NOT FEEL AT RISK CURRENTLY ON SAND CASTLE & ALBATROSS

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) (X) ( )

Comments: DATA SHOWS IT IS A PROBLEM

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) (X) ( )

Comments: DATA TELLS THE STORY

Additional Comments: WE (AT 1651 SC) ARE LIKELY ON THE LESS CUT-THRU PORTION OF SAND CASTLE.

WHEN I AM ON MY BIKE ON SAND CASTLE & ALBATROSS THE VEHICLES WAIT UNTIL ON-COMING TRAFFIC CLEARS BEFORE PASSING - I AM GRATEFUL. THE VOLUME INCREASE PUTS THE ODDS TOWARD IMPATIENCE

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

Contact Information

Name: Jack + Ethel Clancy Phone: 315-694-8931

Address: 1409 Causey Court E-mail: jclancy1@peoplepc.com
number 1

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

● ○ ○ ○

Comments: Please do not widen road - it encourages speeding. For bikes, a pathway seperate from the road would be better

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

○ ○ ● ○

Comments:

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

○ ○ ● ○

Comments:

Additional Comments: A school bus stop is located at intersection of Sand Castle + Sand Castle - but there is no shoulder for parents to park. Could a gravel shoulder be created there to accomodate at least 5 cars? It would make life easier + safer for those of us who use that bus stop. Also, a bike rack should be placed there

Contact Information

Name: BOB RISCH Phone: 395-2090

Address: 1210 KITTIWAKE E-mail: ROBERTNRISCH@GMAIL.COM

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

Comments: I think the residents of Sandcastle should have more of a say. I would like to see a path because of safety.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

Comments: Sandcastle is one big arc – you are always in a curve. I've tried driving thru the Dunes at 30 mph it is not safe.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments: Seems like a very difficult thing to do – speed bumps? Officer during peak periods?

Additional Comments:

As usual the city has approached this in a very professional manner. Thanks

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

Address: 1194 Sand Castle Rd E-mail:

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: Roads were just dug up for sewer lines. We're walkers and bikers - our safety is important.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: 25MPH MAX - 17MPH on sharp curves. We want a deviation to the stated 30MPH speed limit. (25 or 20 MPH)

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: During season (Feb - April) Most of these cars are people who live off the island.

Additional Comments:

Dangerous walking on Sand Castle Rd. (S) Drivers go too fast - drift over to middle of road. Drivers can't see walkers and vice versa because of dense vegatation especially on several sharp (S) curves.

* We live on the "busy" part of Sand Castle Rd

Contact Information

Name: Gordon Evans Phone: 579 0495

Address: 958 Sand Castle Rd E-mail: grevans328@aol.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

(((X

Comments: I am a frequent walker + biker and feel that there are unsafe areas (e.g. walking facing traffic around curve) that should be addressed

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

(((X

Comments: This is more important than #1. I walk in non-peak hrs. and encounter speeders (e.g. 6am)

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

(X ((

Comments:

Additional Comments: I walk my two dogs 3-4 times a day and try to avoid Sand Castle where possible. However I must walk on Sand Castle to get to other less traveled roads. I try to walk in non-peak times also. We have been fortunate there has not been a serious accident/injury

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

Contact Information

Name: ED Armbruster Phone: 609-204-9985

Address: 1287 Sand Castle Rd E-mail:

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: Residents and Visitors Alike come to Sanibel due to the Slower respectful pace. It seems sharing the road - cars - Bikes - Peds - Should continue as is -

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: understanding most speeders are Visitor or part of work force trying to squeeze an 8HR August work load into an 8HR April traffic problem will be difficult to solve -

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: No real solution - maybe Traffic cones on curves through dunes could slow passage as curves are

Additional Comments: Tough to negoatiate and stay in Lanes at more Than 20 mph without knocking cones over and blocking smooth passage on road Also widening road would incourage speed on curves and Shoulder Traffic Lines would change area Look To City Look - * Very nice presentation by Engineering Firm -
