QUESTIONNAIRE

Contact Information

Name: CHUCK HOGG Phone: 472-9878

Address: 9020 MOCKINGBIRD DR. E-mail: chuck.hogg@cashwa.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: The sidewalks road has served us for years. A wider road would only increase the opportunity for more "speed."

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: Crown Colony has 19½ MPH around their property. I realize they are private, however this is "Very effective" in controlling speed

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: This would be very difficult to control. Restrictions of turning would place an issue for homeowners.

Additional Comments: Controlling the speed, with frequent enforcement would deter some of the "cut through."

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

Address: 2024 MOCKINGBIRD DR SANIBEL E-mail: RELINDMAN@AOL.COM

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (X)

Comments: THIS IS LONG OVER DUE!

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

( ) ( ) ( ) (X)

Comments: TO 20 TO 25 MPH.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

(X) ( ) ( ) ( )

Comments: THIS WOULD BE VERY DIFFICULT TO CONTROL, SEPARATING THE RESIDENCE THAT LIVE IN THE DUNES AND THOSE WHO PASS THRU.

Additional Comments:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

TRONGLY PPOSED

Comments: IT IS VERY IMPORTANT TO US NOT TO HAVE A PAVED SHOULDER or BERM (POSSIBLY ~ PROBABLY NECESSITATING ROAD WIDENING) (i) REDUCTION IN SAFETY (GROUPS ASSUMING RIGHT OF WAY) RIDING PAST RESIDENTIAL HOMES (ii) COST PUBLIC and PRIVATE (iii) DESTRUCTION OF RECENT WATER BOARD RENEWAL OF PIPES (iv) DITCHES TO BE FILLED IN (v) LANDSCAPING (vi) CONFISCATION OF PROPERTY (vi) EROSION OF TRANQUILITY and PROPERTY VALUES (vii) INCREASE IN HARDCORE and RUN-OFF

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

Comments: ~~THE PROBLEM~~ (i) IN THE JOURNEY FOR NON-ISANDERS HOME (Say 3.30 - 5.30) (ii) IN 10 weeks - Say mid January to mid April in the Season: IS WHEN THE SPEED PROBLEM PARTICULARLY MANIFESTS ITSELF. A REDUCTION IN THE SPEED LIMIT MAY STILL HAVE FOLK "SPEEDING" BUT SPEEDING AT A LOWER SPEED. (iii) MORE ENFORCEMENT, PARTICULARLY AT THE PEAK PROBLEM TIMES WOULD HELP

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments: HOWEVER, PROBABLY HARD to ACCOMPLISH (i) Speed bumps? (ii) Stickers in vehicle windows (Random stops by police to for residents, issued by the City (Check: set fines)

Additional Comments:

Say: 1st Offence: $50
2nd " $75
3rd Offence: $100
4th " $250
5th $500
6th $1,000 !!!

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

THE DUNES

QUESTIONNAIRE

Contact Information

Name: Lynn Patterson Phone: 472-4086

Address: 1450 Sand Castle Rd. E-mail: ——

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: I'm afraid that including such an "improvement" would only make Sandcastle Rd. more dangerous - Too many cars, cyclists - too little area

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: It would be helpful to keep things slower.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: The volume can be a real problem.

Additional Comments: Controlling the volume of extra vehicles during season is a priority for me. The "cut through" factor can be dangerous, especially when kids are coming home from school.

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

Address: 1321 SAND CASTLE RD. E-mail: betsyschuman@embarqmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

Comments: not enough room — would encourage faster speeds

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

Comments: There is a lot of pedestrian traffic and bike riding in the Dunes, a lower speed limit is necessary especially at curves.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments: Several steps could be taken (1) Restrict right hand turns to Dunes residents only during rush hour traffic time.

Additional Comments: (2) Reduce the speed limit during peak traffic hours (3) Mark center strip of road

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

Subject: Dunes Questionaire

Question 1 4 very important. It would improve the safety of walkers and bicyclists on Sand Castle and Albatross to have a paved shared use path.

Question 2 1 Not important. I rarely see speeding.

Question 3 1 Not important We recently moved from the southern side of Sand Castle to Sanderling Circle. We saw much more traffic but it was never a problem and I don't see a way to limit the traffic. It is only a 2 month issue anyway.

Geraldine and Dan Perkins
1433 Sanderling Circle

Address: 1047 Sandcastle Rd. E-mail: judygursal@gmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: The residents of The Dunes have been without a bike/walking path for many years. This would only promote outsiders to use the path.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: The only way you can lower the speed of traffic is for police to patrol during high traffic times.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: I feel this would be an impossible task! The only way to accomplish this is if the Dunes becomes a gated community and I am not in favor of that!

Additional Comments: My husband and I have been residents of The Dunes for 36 years. We LOVE the Dunes just the way it is!!

4/29/14

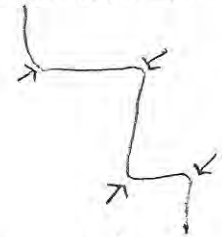
DUNES MEETING

MANY of the DUNES RESIDENTS HAVE GONE, AND HAVE ASKED THAT I REPRESENT THEM ON THE AGREED UPON SUGGESTIONS.

I Most do NOT WANT to HAVE THE ROAD WIDENED.
- A. ENCOURAGES FAST SPEEDS
- B. CHANGES THE village look of THE NEIGHBORHOOD
- C. ENCOURAGES MORE TRAFFIC
- D. LESS SAFE
- E. MORE NOISE
- F. LESS PRIVACY
- G. MORE EXPENSIVE to build

II Cut THRU TRAFFIC HAS A NEGATIVE IMPACT ON THE 100+ HOMES ON SANDCASTLE Rd.
- A. ALSO THRU TRAFFIC HAS NEGATIVE IMPACT ON AFRICANTILE Rd. SLOWS TRAFFIC BOTH WAYS AT BAILEY Road

III SOME IDEAS:
- A. DISCOURAGE CUT THRU TRAFFIC, MAKING THE ROUTE SAFER.
- B. ONE IDEA LOWER THE SPEED LIMIT IN THE DUNES to 20 MPH. PLUS ON THE BIG SWITCH BACK CURVES,



CHANGE THE SPEED to 15 MPH.

- C. SEE MAP ATTACHED.
  NOTE: PERIWINKLE IS 8/10 MILE FROM BAILEY Rd. to DIXIE BEACH Rd. Cutting thru THE DUNES is 2.1 MILES

THE DUNES PROJECT
Thomas R and Theresa E Louwers
1195 Sandcastle Rd
Sanibel FL 33957

Keith,
We have been residents of Sanibel since October, 1983. During this time, there have been many changes to the island including the build-out of the Dunes community. We are fortunate to live on this beautiful island and have served on many committees for the City of Sanibel.

With progress comes changes. However, comments and concerned are generally expressed by those individuals who have only been residents of the City for a short period of time. We would like to express our concerns over some of the recent issues that have been rumored about the Dunes project.

The Dunes community is a relativity quiet and safe development, many homes surrounded the golf course and part of the exterior homes are adjacent to public land.

It is our understanding that a traffic study was conducted to determine the number of vehicles that use the Dunes streets as a bypass. This bypass is used by local residents and workers who use the alternative route when Periwinkle is in near gridlock. We agree that the number of vehicles substantially increase during a relatively short period each year. Generally during the 50 to 60 days prior to the Easter Holiday. Traffic is the busiest during the hours of 3:00-6:00PM. The rest of the year, the traffic is less and does not pose a potential accident risk.

The traffic study should have included the number of bikers, walkers, runners and dog walkers and what time of the day there is an increase in the use of the roadway. Generally we notice that walkers and runners use the roadways in the early AM hours and after the dinner hour when the temperature is lower. The number of persons on the roads between the hours of 3:00 to 6:00PM has not been an issue in the past 30 years,

Our concern, is that of a proposed shared use path within the Dunes community. We are not in favor of this proposal. In previous discussions, we were informed that a shared path would be the result of widening the Sand Castle Rd by approximately four feet. Listed below are comments regarding this proposed path:

The path would not be used by the speed bikers. They already have full access to the main road on the entire island.

The path would be safe for walkers, however, only when no bikers are on the path. Comments from local walkers, indicated concern that bikers would be excessively close to them and cannot hear them approaching. Right now, the bikers are courteous to go around the walkers at a safe distance.

Dog walkers. How far do you walk your dog? Generally the ancillary walking distance between their own properties to the neighbor's yard, where the dog "poops."

We are not in favor of a proposed shared use path in the Dunes. The cost of construction does not clearly justify the necessity of this project. We purchased our property in a residential community, not to be developed in a park-like atmosphere. We are concerned that our property value would be diminished by this project.

Regard,

Thomas R Louwers

QUESTIONNAIRE

Contact Information

Name: Fred Sytsma Phone: 239/395-1021

Address: 1255 and 1643 Sand Castle Rd. E-mail: fasytsma@varnumlaw.co

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: I don't believe pedestrians are at risk, and making the road wider will only encourage faster speeds

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: Not so much lowering speed as enforcing existing limits, perhaps with cameras used to generate tickets

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: this would be wonderful, but I don't know how achievable it is, given the dearth of alternatives

CITY OF SANIBEL

THE DUNES

QUESTIONNAIRE

Contact Information

Name: Leslie Fields Phone: 395-3766

Address: 1095 Sandcastle Rd E-mail: legnysanibel@gmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

✓

Comments: I think this may cause more problems - widening the road may encourage more people to pass each other - I have seen this in front of my house NOW!

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

✓

Comments: I think we have to lower the speed limit to 20 and have the police enforce this until passers through know the City is serious about this.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

✓

Comments: Maybe a lowed speed limit will discourage pass-through traffic. Lower the speed limit and perhaps some speed bumps on the straight-a-ways and a solid stupe to enforce NO passing on Albatross or Sandcastle Rd.

Additional Comments:

* Thank you so much for finally looking into this!

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

THE DUNES

QUESTIONNAIRE

Contact Information

Name: Jack + Fay Chestnut Phone: 239-472-0994

Address: 1563 Sand Caste Road E-mail: fay@jchestnutlaw.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: Absolutely opposed - not necessary - not compatible with residential neighborhood / City of Sanibel wants green percentage - bike path would not allow the correct %.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: 20-25 mph OK / On both of Gumbo Limbos entrances there is a posting of 25mph. No posting at Dixie Beach + Albatross + Sand Castle or Bailey Road + Sand Castle

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments:

Additional Comments: What you are thinking about & spending architecture fees doesn't make sense - look at the amount of land you have to work with - it's not there - also costs to relocate mailboxes, dog fences (electric), driveway "in our case" is marble, culverts, signage, maybe water/sewage pipes + sprinkler systems = very expensive

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

Comments: Bikes + walkers will continue to walk/ride together most likely in the street. There will be disruption to driveways, mailboxes + irrigation. Moving mailboxes may interfer c̄ mail delivery.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

Comments: Speed limit should be 20 mph, the same as the curves. Speeds should be monitored + ticketed for speeders.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments: Safety of walkers + bikers as well as home owners coming out of driveways. Golf carts drive slow c̄ cars trying to pass.

Additional Comments: The increase in traffic occurs primarily during the 3 mo of the season - no Thru traffic signs @ both entry points along c̄ a 20 mph monitored speed limit would deter drivers cutting thru during peak hours. Encourage Billy's Bikes to change their brochure to include additional communities to ride in.

Question 1: How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sand Castle Road and Albatross road as part of an upcoming roadway paving project?

In an ideal scenario, my husband and I agree that it would be wonderful to have something like a bike path on Sand Castle and Albatross. However, we have heard from neighbors that they were told that adding something like that would be a large-scale endeavor involving taking two feet from owner properties on each side of both roads and then locating the path on one side of each road. We think that it is a cost-prohibitive, labor-intensive, and a needlessly disruptive way to address pedestrian and bike traffic in our community.

We think that the answer to question two is tied to this question, and hope that our ideas for the second question help address issues raised by this question. Having said that, we would strongly suggest that the City post signs indicating that bike traffic proceed IN SINGLE FILE and that it move in the SAME DIRECTION AS MOTOR VEHICLES. Based upon our observations, these suggestions address the situation we see in front of our house...folks riding abreast of one another, refusing to move to single file when cars come along, and folks riding on the side against traffic.

Question 2: How important is it to you that the City take steps to lower the speed of vehicles traveling within the Dunes?

THIS is the heart of the matter for my husband and for me. We live at 1105 Sand Castle, the last straightaway before turning right to go to Bailey Road. We won't bore you with prolonged descriptions of some of the scenarios we have witnessed between 3:30-6:00 p.m. when Periwinkle is hopelessly jammed and "those in the know" who are in a rush to get off the island use the Dunes as a shortcut. We believe that you will be able to extrapolate from our suggestions some of the traffic horrors we have witnessed during that stretch of time, especially on weekdays.

We cannot lend enough support to the idea of lowering the speed limit to 25 miles per hour throughout the Dunes and no more than 30-35 miles per hour on Bailey Road and Dixie Beach Road. I walk my dog at least 8-10 times a day on our street, and I can tell you that cars traveling around 30 miles an hour feel like they whiz by Murphy and me at a much faster rate. A 30 mph rate might be okay in an area that is not highly residential, with residents walking pets or walking with friends, but it is NOT okay in the Dunes.

My husband and I both feel strongly that there should be double yellow lines THROUGHOUT the Dunes, not just around bends in the road. Drivers need to be reminded that Sand Castle is a two-way street rather than a one-way street that lends itself to driving down the middle. Drivers need to be notified that

there is NO SAFE PLACE to pass other moving vehicles on Sand Castle Road. I would go so far as to suggest that this could be done immediately, rather than wait a whole year, after the 2015 high season, when the project begins. My husband suggests that signs also be posted indicating that *speed may be checked by radar.*

At the Open House on April 29th, the idea of speed bumps was brought up to us. That is an acceptable idea to us, although again we wonder about the expense of installing and maintaining them.

Question 3: How important is it to you that the City take steps to reduce the volume of vehicles that cut through the Dunes?

Since we don't live in a gated community (and don't want to live in one!), neither my husband nor I can come up with a way for the City to limit who drives though the Dunes that is inexpensive and not time-consuming. Sure, we would like to see fewer cars use the Dunes as a shortcut off the island at the end of the workday, but would need someone to explain how it could be done from a practical perspective!

Additional Comments:

We want City representatives to be aware that the traffic issues addressed through this questionnaire do NOT occur only in February, March, and April. As full-time residents of Sanibel and the Dunes, we face these issues all year long. True, the influx of seasonal residents and tourists makes the winter and early spring months much worse, but the Dunes is a short-cut for some workers and day trippers all year long. I have observed people driving work vehicles from island restaurants, retail businesses, and construction companies flying past our house in July, October, January, and every month in between. How do I know that these are vehicles from restaurants, businesses, etc.? Because their placards are on their vehicles, and they drive as though they do not care about the welfare of us and of our neighbors. Shame on them!

I believe that the needs and interests of full-time residents require greater attention from the City. It seems that we are sometimes forgotten in the interest of attracting tourists and making seasonal residents happy. Embracing and following through on at least some of the suggestions we have made, and the suggestions that will be made by our full-time neighbors, will go a long way to making those of us who live here 12 months a year feel respected and appreciated.

Finally, my husband and I would like to express our thanks to the representatives of the City who held the April 29 Open House. We are equally appreciative that you are taking input from residents of the Dunes, Bailey Road, and Dixie Beach before a major project begins.

RECEIVED BY
14 MAY 15 PM 2:42
CITY OF SANIBEL
ADMIN./LEGIS.

1613 Sand Castle Road
Sanibel Island, Florida 33957
May 14, 2014

Ms.Judy Zimomra
City Manager
City of Sanibel
800 Dunlop Avenue
Sanibel Island, Florida 33957

Dear Ms. Zimomra:

We simply don't get it! The city government's plans continue to turn what used to be a quaint and charming island into what some people are now referring as West Fort Myers.

Regarding the recent announcement in the *Island Sun* about the planned $700,000 expenditure to resurface the roads in The Dunes:

Right now the roads appear to have some years left on them for safe use by this low population residential subdivision.

But okay, we get it. Repave the roads and keep up the infrastructure according to a planned Public Works Department timetable even if the roads are perfectly functional.

But the thought of adding yellow lines along every road and reflector lights that's being considered? We're flabbergasted.

Think psychologically about this. The mindset of newly repaved roads with smooth surfaces, yellow lines, and reflectors says, "Take this route. I am a main thoroughfare. You can drive fast on me." The existing yellow lines and reflector lights that now exist on Dunes' roads do not deter speeders!

Okay, we understand that there is speeding and 65% of the cars and trucks that come through the Dunes are taking a short cut to get from Bailey Road to Dixie Beach Road or reverse to save time. Residents of the Dunes who live on the west side of Sand Castle Road and Albatross Road have been saying this for at least 15 years. It really didn't take a pricey traffic analysis to confirm this fact.

It's called the zoom-zoom mentality of getting somewhere faster! So what if, when paving the roads, the Public Works Department puts in speed bumps at throughout the Dunes and slower – much slower – speed limits? Oh my, everyone would have to slow down. Then what would happen? Periwinkle Way might be a faster route for the zoom-zoomers. Speed-bumps and lower speed limits are an easy fix. They are much more preferable than bright yellow lines and reflector lights everywhere. Do you think that the homeowners and taxpayers in the Dunes want to look out their windows at yellow lines and 365 days a year "luminarias"?

All of this fabulous news comes to us in print in the *Island Sun* after "season".

How about this: Mail postcards (less expensive than letters) and request that the Dunes homeowners and Sanibel taxpayers fill out a short survey, i.e., "Do you want to see #1, #2, #3, etc. on your roads?" and possibly a comment area. Get the opinion of the people in this neighborhood! Communicate with us on all levels: print, Internet for those who subscribe, and well publicized-in-advance meetings in season to learn what all of the Dunes homeowners think, not just a select few. Look at the photos in the *Island Sun* of the participants at the meeting with

Keith Williams of Sanibel's Public Works Department. Packed with homeowners! Maybe, a handful at best!

Please stop creating an unsightly island in efforts to upgrade or modernize. What, for example, would it have taken to relocate the new LCEC monstrous new utility pole at the Palm Ridge Road turnoff another 10 to 20 feet back from Periwinkle Road? What an ugly eyesore now! New island charm, I guess. Residents are moving off the island for many reasons, but overkill infrastructure rebuilding just adds another reason to flee this new West Fort Myers.

We know that the roads of the Dunes eventually need to be repaved. But don't you think it is more important to first spend funds to add automated speed guns and dedicated Dunes traffic officers issuing tickets for traffic offenses every day?

Make the Dunes an unappealing route for the zoom-zoomers. If you ask the residents, I think that they'll agree. A newly resurfaced road – with yellow lines throughout and raised reflectors – will only make the problem worse.

We wish the hard-working government employees and council members of Sanibel – and all the residents – only the best for a beautiful Sanibel Island. We hope you consider our opinion. It is meant from the heart.

Sincerely yours,

C. Elaine Keen
D. Marie McSherry

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 ✓ 3 4 (very important)

Comments: This would be desirable, but not necessary if normal, residential traffic exists, rather than the current cut-thru race track conditions.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important) ✓

Comments: Bikers, walkers, joggers, children at play, golfers, yard workers, etc, are all endangered by speeders + total lack of enforcement.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 ✓ 4 (very important)

Comments: This is critical. Sand Castle Road is treated as a hiway-interstate every morning + evening during season.

Additional Comments: Please consider lowering the speed limit, plus strict enforcement. A few traffic tickets and heavy fines would do more good than anything. Also, please consider rumble bumps at the golf crossings + Dunes entrance. Foliage is not the problem at the Dunes. It's a bad, blind curve. Please act or ~~there~~ fatalities are inevitable.

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 ✓ 4 (very important)

Comments: I WALK daily - AND DONOT feel secure on the roadways in the Dunes - However, I worry about driveway exiting with a "walkway" -

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 ✓ 3 4 (very important)

Comments:

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 ✓ 4 (very important)

Comments: I feel that traffic congestion on the island is a major problem during "the season" - It is an unsafe situation and extremely frustrating to try to exit the Dunes neighborhood onto Periwinkle - Plus - it is not environmentally correct to be stuck in a gridlock situation

However, my house on the "far side" of SAND CASTLE doesn't seem to suffer from excessive "cut through problems -

thank you for addressing our neighborhood concerns -

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

● ○ ○ ○

Comments: THIS DOESN'T ADDRESS THE REAL PROBLEM OF #2 + #3 BELOW.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

○ ○ ○ ●

Comments: WORKERS + COMMERCIAL VEHICLES RUSHING TO GET OF ISLAND - BIGGEST PROBLEM - AT RUSH HOUR EXCESS SPEED - DANGEROUS SITUATION - RESIDENTS FEARFUL TO USE ROAD FOR PEDESTRIAN + BICYCLE PURPOSE

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

○ ○ ○ ●

Comments: WE HAVE BEEN YEAR ROUND RESIDENTS FOR 34 YEARS ON SAND CASTLE RD. SEASONAL RUSH HOUR TRAFFIC HAS BEEN A CONTINUOUS, GROWING PROBLEM AND HAS CREATED A DANGEROUS SITUATION ALONG OUR STRETCH OF SPEEDING + EVEN PASSING VEHICLES. OUR DAUGHTER WAS ALMOST STRUCK BY A CAR THAT SLAMMED INTO A MAILBOX AT A CURVE AT HIGH SPEED. IT IS NOW A WELL KNOWN CUT THROUGH AND IS DISREGARDED AS A RESIDENTIAL NEIGHBORHOOD. LARGE TRUCKS, LAWN SERVICE, MAINTENANCE + WORKERS ALL USE IT NOW. WOULD HOPE THAT THERE COULD BE SOME WAY TO (OVER)

Additional Comments:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096
(239) 472-6397 | Keith.Williams@mysanibel.com

REDUCE BOTH VOLUME + SPEED WITHOUT REDUCING THE INTEGRITY OF IT BEING A LOCAL, RESIDENTIAL NEIGHBORHOOD.

[illegible] - BUT APPRECIATE [illegible] CHANCE TO [illegible] AND YOUR [illegible] TO THE [illegible].

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: NO PAVED SHOULDER OR BERM. IT WILL ENCOURAGE SPEED AND YARD SERVICE TRUCKS TO PARK ON IT.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: THAT WOULD BE GREAT.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: IT IS A NEIGHBORHOOD, NOT A SHORTCUT OFF THE ISLAND

Additional Comments:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

QUESTIONNAIRE

Contact Information

Name: Fred C. Nordstrom Phone: 395-2944

Address: 1343 Pelican Rd E-mail: Smnord@gmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

[1]

Comments: Lets do not change the Ambiance of the Dunes

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

[4]

Comments: The road is multi-use. So an appropriate warning sign plus "cautions" would be appropriate.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

[4]

Comments: The "south Sandcastle" road has become a "race track". I fear lowering the speed limit might not accomplish much. A "gated community" from 4-6 P.M. would be great but not feasable.

Additional Comments:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:

Address: 1395 Sand Castle Rd E-mail:

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

Comments: avoid this solution - costly and does not solve the problem.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important) ✓

Comments:

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important) ✓

Comments:

Additional Comments: Speed through a residential area is unacceptable and dangerous. My home property has been hit 2x in the last 2yrs because of speed.

Solution ① place speed bumps along Albatross - #28 on map and along #29.

② reduce speed to 20mph from 7-9am and 4 to 7 pm - heavy traffic fines for speeding

If this does not work - make a no traffic entry to Dunes from Bailey Rd 7-9 and Albatross 7 to 7.

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

SANIBEL THE DUNES

QUESTIONNAIRE

Contact Information

Name: James White Phone: 517 398-0106

Address: 1562 Sandcastle Rd. Sanibel, FL 33957 E-mail: jameswhite56@yahoo.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

Comments: Not at all. I think that would increase speed, and decrease yard space.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

Comments: Most of the year speed is not an issue, in the height of the season it can be a problem, but the police presence seems to help.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

Comments:

Additional Comments: Continued police presence will do a lot to aleviate speed problems and enforcing the laws already on the books. Pedestrians and Bicycles actually slow traffic down! We all have to be more careful, a safe lane or berm will give speeders a false sense of security.

Thank You, James White

1562 Sandcastle Rd.

QUESTIONNAIRE

Contact Information

Name: Dr. & Mrs Steve & Katie Branam Phone: 419 215 5002

Address: 1170 Sandcastle E-mail: katie.hb@gmail.com

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: Some of the curves are extreamly dangerous even to walk let alone ride. Morning & late afternoon are the worse & in season I'm afraid to walk or ride late afternoon

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

XXX

Comments: The speed seems to be with "cut through" traffic trying to beat the Periwinkle congestion

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

XXX

Comments: I've given this lots of thought but can't come up with a solution because of the public Dunes Golf Course needing access. The west side of Sand Castle where we live is the worse, especially late afternoon in season.

Additional Comments: As newer owners we a thrilled that "something" is being considered to fix a problem we didnt know existed until we moved/moved in the house.

CITY OF SANIBEL

THE DUNES

QUESTIONNAIRE

Appreciate the opportunity to give our views.

Contact Information

Name: Annie Wainwright Phone: 472 8411

Address: 1550 Sand Castle Road E-mail: DODANNIE@GMAIL.COM

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

● ○ ○ ○

Comments: Strongly object to widening / bike path idea. This will lead to increase of tourist biking (Billys Bikes & Segway tours) thus wrecking the tranquil neighborhood. Also loss of land and reduction of house value. Also VERY expensive & disruptive - we have only just re-done driveways, mailboxes etc from new waterpipes.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

○ ○ ○ ●

Comments: Suggest 20-25 mph limit throughout The Dunes. If this is enforced between 3.30 & 5.30 this will lessen the drive-through/cut through.

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

○ ○ ○ ●

Comments: Widening road & adding bike paths will NOT reduce traffic, will be hugely expensive, and reduce homeowners land and property values. And 4 ft extra would anyway be hardly enough for a bike path. I appreciate the issue is broader (slow traffic on causeway going off island means policeman cannot move Periwinkle / Hundgren off any faster) and as long as traffic is at standstill on Periwinkle there will be cut through traffic at the peak time. If a lower speed is enforced for, say, 2 hours a peak times, this would surely lessen cut through traffic.

Additional Comments:

Questionnaires may be submitted at the public meeting, via mail, or e-mail by May 23, 2014 to:
City of Sanibel, Keith L. Williams II, P.E., 800 Dunlop Road, Sanibel, FL 33957-4096

Address: 9057 Mockingbird Drive E-mail: camoldaver@yahoo.co

Please answer the following questions, 1 being the least important and 4 being the most important.

1) Not Important --- I am many years past 75, and ride my bike everyday in the Dunes and on Sanibel.. Drivers in The Dunes go out of their way to give bikers and joggers plenty of room OR they slow down to a crawl if they cannot pass. I do try to avoid Albatross and Eastbound Sandcastle during high traffic. Because Albatross is a straight Road, some drivers may step on it.

2) Very Important --- I believe the speed limit should be lowered to 25 MPH. We are a neighborhood of over 350 homes and lowering the speed limit should not be offensive to the Homeowners of The Dunes. ---- Gumbo Limbo a community similar to The Dunes, the Speed Limit there is 25 Miles per hour. Maybe there is a reason for this and The Dunes should pay attention to this example.

3) Very Important! --- Again this is a Community of 350 homes, with many walkers, joggers, bikers, children, baby carriages, very few wheelchairs and some wild life. Yes, the City MUST attempt to limit access to The Roads in The Dunes. The Community of Gumbo Limbo is never a "cut through street"; yet their Posted Speed Limit is 25 MPH. Maybe there is a lesson here to be learned. Drivers who cut through may not be as "community minded" as residents of The Dunes and maybe not as careful or considerate. We did not choose to live in The Dunes, "a very quite neighborhood" to entertain cut through drivers, whose only objective is to try to get to their homes early.

Additional Comments: Keith, thank you for the Survey, it was most informative and interesting and for inviting us. When paving of The Streets in The Dunes is about to begin, I/we would appreciate another open Forum to understand what to expect. Please hold that Forum in March and no later than the middle of April 2015 so that many more residents may attend. Thank you.

The following information was collected:
Sender name:
Susan Kilbourne
Subject:
The Dunes open house on Tues. April 29.
Message:
I cannot attend the open house on Tues. April 29 for Dunes residents. I would like any information presented at this open house to be supplied to me either by mail or e-mail. I would like the results of the recent field data collection in our neighborhood as well as what the city is proposing as solutions.

I believe the speed limit should be reduced on Sand Castle Rd. That being said, a reduced speed limit will do no good unless the police are willing to patrol the road and actually give tickets. As soon as they start doing that, people will slow down. A lot of the speeding traffic seems to be businesses on the island as well as workers on the island. By not ticketing these people, you are giving them permission to speed through our residential neighborhood without fear of any consequences.

I believe that a multi-use path with do nothing to solve the problem of speeding traffic and only ruin the small bit of neighborhood feel that we have.
Trees will have to be cut down and it will cut into the small front yards that characterize our neighborhood. I look forward to hearing from you. - Sincerely, Susan Kilbourne

Please answer the following questions, 1 being the least important and 4 being the most important.

1) How important is it to you to include a paved shoulder or berm allocated to pedestrian and bicycle use on Sandcastle Road and Albatross Road as part of an upcoming roadway paving project?

1 (not important) 2 3 4 (very important)

X

Comments: Please no.

2) How important is it to you that the City take steps to lower the speed of vehicles travelling within The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments:

3) How important is it to you that the City take steps to reduce the volume of vehicles that cut through The Dunes?

1 (not important) 2 3 4 (very important)

X

Comments: If speed were limited it would not be as attractive to cut through.

Additional Comments: The study you conducted was very well designed. However there is the variable that people do slow down when they see the black tubes.
