Mr. Mick Denham
Vice Mayor City of Sanibel
800 Dunlop Road
Sanibel, Florida 33957-4096

Dear Mick,

Thank you for your letter of September 28, 2012. The City of Fort Myers promotes responsible environmental policy and energy conservation. Water management is also kept on our policy list. I am happy to participate in the responsible initiative of fertilizer management to eliminate extensive enforcement requirements.

We can manage a modest contribution for this worthwhile initiative and it is consistent with our goals for Fort Myers.

Thank you for your leadership in this regard.

Sincerely,

Randall P. Henderson, Jr., Mayor
