

12/7/12

Dear Judy Zamora, Sanibel City Manager,

After significant consideration, I request that my position with the City of Sanibel Vegetation Committee be eliminated, after a considerable time as a member, inspector, and President.

I have found great pleasure with my participation in teaching Vegetation both native and non native to Committee members and to those needing a license to work on the Island. It has also been a pleasure to work with City Staff.

I have previously spoken to President Phyllis Gresham of my decision.

Sincerely yours,

William P. Wollschlager
