SANIBEL GENERAL EMPLOYEES' RETIREMENT TRUST FUND
Investment Policy Statement

Approved: 05/08/13
Last Amended: 05/08/2013

1. SCOPE AND PURPOSE OF THE INVESTMENT POLICY STATEMENT

This investment policy shall apply to all funds under the control of the Board.

The Pension Board of Trustees maintains that an important determinant of future investment returns is the expression and periodic review of the Plan's investment objectives. To that end, the Trustees have adopted this Statement of Investment Policy.

In fulfilling their fiduciary responsibility, the Board recognizes that the Plan is an essential vehicle for providing income benefits to retired participants or their beneficiaries. The Board also recognizes that the obligations of the Plan are long-term, and that the investment policy should be made with a view towards growth and income performance over a number of years. The general investment objective, then, is to obtain a total rate of return - defined as interest and dividend income plus realized and unrealized capital gains and/or losses less investment expenses that achieves the actuarial interest rate assumption (6.75%) for the current year, for each of the next several years, and for the long term thereafter. The Board is mindful that this is a **closed** Plan and that managing investments to insure that cash is available to pay employee benefits and Plan expenses is an important objective.

2. INVESTMENT AND FIDUCIARY STANDARDS

In performing their investment duties, the Board, its money managers, and investment consultant shall comply with the fiduciary standards set forth in the Employee Retirement Income Security Act of 1974, 29 U.S.C. § 1104 (a) (1) (A)-(C). That is, they must discharge their duties with respect to the Plan solely in the interest of the participants and beneficiaries

- A. for the exclusive purpose of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the Plan;
- B. with the care, skill, prudence, and diligence under the circumstance then prevailing that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aim; and
- C. by diversifying the investments to minimize the risk of large losses.

3. ASSET ALLOCATION AND REBALANCING PROCEDURE

The investment strategy of the Fund utilizes various investment approaches, as follows:

<u>Expected Investment Approach</u>	(Percent)		
	<u>Allocation</u>	<u>Min*</u>	<u>Max*</u>
Large cap core value equity	11.5	7.0	13.0
Large cap core growth equity	11.5	7.0	13.0
Convertibles	10.0	0.0	12.0
Mid-cap core equity	8.0	6.0	11.0
Small-cap equity	7.0	6.0	10.0
International equity	15.0	7.0	25.0
Real estate	5.0	0.0	10.0
TIPS	2.0	0.0	5.0
Fixed income (bonds)	23.0	20.0	64.0
Infrastructure (MLP)	5.0	3.0	8.0
Cash equivalents	2.0	N/A	N/A
Total	100.0		

The Model Hybrid Index, as follows:

Russell 1000 stock index	23.0%
ML Convertible index	10.0
S&P 400 Mid-cap stock index	8.0
Russell 2000 stock index	7.0
MSCI EAFE ←	15.0
NCREIF ODCE index	5.0
Barclays TIPS index	2.0
Barclays Aggregate Bond	23.0
Infrastructure (MLP)	5.0
90-day Treasury	2.0
Total	100.0

Morgan Stanley Capital International Europe, Australasia, and Far East

Since market conditions will favor one approach over another, the asset allocation will require periodic rebalancing. Because the long-term approach of the Fund is to achieve blended returns of seven separate investment approaches, it is essential that relative weightings do not become over or under-allocated for long periods of time. The investment consultant and Board will consider adjusting the asset allocation.
