

**BOARD OF
COUNTY
COMMISSIONERS**

CHRIS DZADOVSKY
COMMISSIONER

October 8, 2013

Mr. Doug J. Congress- Vice Mayor
City of Sanibel
800 Dunlop Rd.
Sanibel, Florida 33957

Dear Mr. Congress:

I would like to take this opportunity to thank you for your participation and support during our recent visit to Washington D.C in reference to the Lake Okeechobee discharges. We are all very satisfied with the fact that our voices were heard, and are now hoping that Congress will focus on finding the solution and provide the resources needed to put an end to a situation that affects our state in many different ways.

We would like for you to know, that here in Treasure Coast, we have formed a 6-County Collaborative Coalition, where elected officials from different counties as well as scientists and members of our community get together, in order to identify possible ways of improving the quality of our waterways. If you find some time, you are welcome to join our meetings, which are expected to be held on a monthly basis at different locations.

If I can be of any assistance on this or any other matter, please don't hesitate to contact me at any time. I look forward to working together in the very near future.

Best Regards,

Chris Dzadovsky
County Commissioner, District 1
St. Lucie County
