

CITY OF SANIBEL

HURRICANE SHUTTER INSTALLATION FORM

OWNER: _____

ADDRESS: _____

CONTRACTOR: _____

I (or we) give the contractor listed above permission to obtain necessary permits to install hurricane shutters at my home.

I also understand all hurricane shutters installed in the City of Sanibel must be engineered and certified for 130 m.p.h., Exposure "C" wind loading. In most cases, Rolling Shutters will require intermediate vertical bars which, due to certain window styles and building code emergency egress requirements, will be provided but not installed by your contractor.

I understand that to ensure the hurricane shutters provide the designed protection for my property, it is my responsibility to install all required reinforcing bars prior to an impending storm. I acknowledge that I have been instructed on the correct procedure for installing the bars.
