CONDITIONS: _____

NOTE:

1. Must notify all other utilities prior to commencement of work.
2. All construction must be in accordance with Sanibel Standards or an approved plan.
3. Attach sketch or plans showing details of proposed work.
4. All rights of way and yards must be sodded and drives, etc. must be restored to existing condition.
5. Notify City after completion of work.

Applicant agrees to prevent erosion of soil on the site and adjacent property resulting from the construction activities. Effective measures shall be initiated prior to the commencement of clearing, grading, excavating, or other operation that will disturb the natural protection. Install silt barriers or screen for capturing sediment/solids from erosion and dewatering activities.
