

**CERTIFICATION OF COMPLIANCE
WITH THE SANIBEL CODE STANDARDS
FOR FORMULA RETAIL STORES IN THE CITY OF SANIBEL**

This is to certify that I have reviewed the Sanibel Code Section 126-102 which regulates formula retail stores within the City of Sanibel (including all new formula retail stores, even if the prior use was a formula retail store, regardless of whether the prior formula retail store had obtained conditional use approval for that use.)

A **formula retail store** is defined by Sanibel Code Section 78-1 as:

A type of retail sales activity or retail sales establishment that is required by contractual or other arrangement to maintain any of the following:

- Standardized name of business
- Standardized business signage
- Standardized architecture
- Standardized (formula) array of merchandise
- Trademark
- Logo
- Uniforms

For purposes of the city's commercial land use regulations, **formula retail stores** do not include establishments providing professional services, including, but not limited to, real estate offices, medical offices, dental offices, offices of health practitioners, banks, savings and loan associations, mortgage and securities brokers, accounting services, appraisers, cable television services, insurance agents, and interior decorators.

Formula retail stores do not include grocery stores, hardware stores, gasoline service stations and restaurants; however, see the definition of formula restaurant.

Furthermore, retail stores that have more than one location, but that had their original location in the city, are not defined as formula retail stores. The second location of a retail store, that had its original location in the city, is not defined as a **formula retail store**.

I have applied for a City of Sanibel Occupational License to operate the business of:

The name of the business is: _____

The Location of the business is: _____

I hereby represent to the City of Sanibel that my business operation wil comply with all requirements of the Sanibel Code and is not a formula retail store as defined by the Sanibel Code Section 78-1.
